CASE STUDY: Read the case study below and record the situation on the attached documentation.

- ♦ OB
- ♦ Pocket book
- ♦ Incident report.
- ♦ Report

Obtain all the necessary information from the case study below. The documentation needs to be complete and contain all the necessary and correct information as outlined in the case study.

The sound of thunder and bright flashes in the sky may have been a wonderful spectacle last night, but what I didn't realize was that it would cause one of the worst days of my life. I did not know about the power failure at three this morning because I was fast asleep. The first time I realized that my alarm did not go off, was at $\frac{1}{4}$ past five this morning – which meant that I was going to be late for work. I rushed while getting dressed and did not have time to iron my uniform because I had to run to get the last taxi. In my haste I forgot to put my pocket book in my pocket, and I could not find my shoes, so I wore takies instead.

I actually made it to work, only 7 minutes late. My co-worker that had just finished night shift was not very impressed with me because he still had to do the handover. He was going to miss his taxi and would have to wait at least $\frac{1}{2}$ hour for the next one. Because I felt guilty about coming late, I told him to go – I would read the OB to get the details of the night shift....

It looked like things were eventually settling down to a normal, boring working day. Cars stop, "morning sir", "who are you visiting sir", "that would be at block C – second building on the left", "have a nice day sir". The same thing, over and over. Sometimes I feel like a tape recorder. Cars come, cars go.

In the mean time I'm still a bit unsettled from all the rushing around this morning and tired from lack of sleep because I had to settle the kids down who were crying because they're scared of the thunder and lightning.

Then the blue BMW stops at the gate about 09:20 . He hoots. So I wasn't quite as observant as I am supposed to be – I am tired, you know. I paste my smile on my face and walk up to the driver's window.

I get as far as saying: "Good morning, Sir."

"Good? – good???; so what's good about it?"

"Where is Mr. Brown? It's ten past nine. These \$%# taxis! They caused an accident that has made me late! Open this #%^ boom!"

"Sir", I say, "I have to search your vehicle before you enter." And I think to myself that this guy is so rude - I haven't done anything to him!

"Never mind about my boot, open this gate, you \$|%&*@& "%&*(%\$(*%\$*0%)@*"

By now I'm getting very upset. Who does he think he is to swear at me and call me names? I'll show him....

"Sir, please get out of your vehicle and open the boot. I will not let you pass until I have searched your vehicle!" I tell him.

"Yes, you *%(%^(%#*% - I'll get out" - he swears at me again. Now he's done it. There's no way that someone insults my mother like that and gets away with it. I will search every inch of his car, and today is the day that he will not pass my boom.

He gets out of the car, and that's the last thing I remember before I see my supervisor's face and feel him shaking me. I am lying on the ground, and the boom is pointing up into the sky with blue BMW paint all over it. My jaw hurts like hell...
