Material compiled by: Training Dynamics Africa

HOW THIS LEARNER WORKBOOK IS COMPILED

This learner workbook has been compiled to lead learners towards achieving knowledge, skills and attitudes that would enable them to prepare and conduct hand over and take over responsibilities when assuming or relinquishing duties.

1. Prepare for the handing over and taking over of responsibilities
2. Assume responsibility at area of work
3. Hand over responsibilities

You have to study the content and guidelines given in your learner reference guide to complete this workbook.

Remember that this completed workbook must be handed in as it will form part of your formative assessment and will play a role in awarding you the required 02 credits that are to be achieved upon completion of this module.

Write neatly and legibly and ensure that you do not simply copy the information contained in the learner reference guide into your workbook. Give your own opinion and ideas where applicable and write the answers in your own words to indicate your level of understanding and learning.

Good luck with the completion of this workbook.

LEARNING UNIT 1

Documentation

- ♦ Use applicable documents as required for duty preparation.
- ♦ Demonstrate knowledge by explaining the requirements for completing registers and security related books.
- ♦ Demonstrate knowledge by explaining the requirements for accurate recording.

LEARNER ACTIVITY 1 (page 13)

When you are preparing for duty at your area of responsibility, what documents and registers must be available for you to execute your duty?

The documents required for duty are:

- ♦ Occurrence book
- ♦ Pocket book
- ♦ Message book
- ♦ Instruction book
- ♦ Registers

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 2 (page 13)**What is the purpose of an occurrence book ?**

An occurrence book is used to record all security related activities that occur during your period of duty.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 3 (page 13)

You are patrolling during night shift and are alone on duty. You find that office no 5 has an unlocked door and the lights left on. What type of information should be recorded in the occurrence book?

The following examples of information could be included in the occurrence book:

- ♦ Reporting on and off duty.
- ♦ Crimes committed during your duty.
- ♦ Arrest made.
- ♦ Actions resulting from the arrest.
- ♦ Accidents that occurred during the duty.
- ♦ Damage to property.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 4 (page 14)

Are you allowed to use red pen in the occurrence book and secondly why is the use of tippex not allowed.

Keep the following in mind when writing entries into your occurrence book:

- ♦ Number your entries in a chronological sequence starting with one.
- ♦ Ensure the correct date, month and year is recorded in the occurrence book.
- ♦ Make entries in the order in which they occurred and make sure the correct time is allocated to each event.
- ♦ Use black ink to write and red ink to underline. Registers are usually inspected in red ink.
- ♦ Write neatly and legibly.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 5 (page 17)**Describe what a pocket book is when to use.**

Pocket books are small A-6 books that each security officer must keep with them at all times and are checked by supervisors and management. These books are used to assist the security supervisor to maintain a high standard of control of all staff and to monitor the activities of officers. Any deficiencies in the security system through entries made by his/her staff members should also be followed up. When a pocket book is full, it is handed in and a new one will be issued to the security officer as per company procedure.

The reasons for keeping the pocket book are:

- ♦ Keep records of duty hours on site.
- ♦ Keep notes, orders and instructions.
- ♦ Document items when away from the occurrence book.
- ♦ Record necessary details to use at a later stage.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 6 (page 17)**Why would you, as a security officer, keep a pocket book?**

The reasons for keeping the pocket book are:

- ♦ Keep records of duty hours on site.
- ♦ Keep notes, orders and instructions.
- ♦ Document items when away from the occurrence book.
- ♦ Record necessary details to use at a later stage.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 7 (page 20)**Explain what the purpose of an instruction book?**

This book is used by the senior security officer to inform the security officers on duty of any extraordinary instructions during their period of duty. Examples could be an electrician checking wiring over a weekend and requiring entrance into various offices.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 8

To maintain adequate security standards, would it be acceptable to record vital information on loose pieces of paper? Motivate your answer.

No, loose papers gets lost

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 9 (page 26)

Explain the typical procedure to be followed when completing a visitors register.

Step 1:

VISITORS REGISTER:

The keeping of a Visitors Register at all security controlled sites is a requirement.

The register must be in book form and all the pages must be numbered.

Step 2:

DETAILS REQUIRED:

Each page of the register is divided into columns, so that details about the visit and the visitor can be recorded easily:

- ◆ Date of visit
- ◆ First name and surname of visitor
- ◆ Reason for visit and name of Site employee who is being visited
- ◆ Name and address of firm/company
- ◆ Visitor's permit number
- ◆ Time of entry
- ◆ Time of exit
- ◆ Visitor's signature
- ◆ Vehicle registration number

Step 3:**COMPLETING THE REGISTER:**

After the visitor has stated the purpose of his visit and it has been established that the Site employee can in fact speak to him, he will be asked to complete the Visitors Register in full.

Also see Work Instruction for Access Control.

Step 4:**MAINTENANCE OF REGISTER:**

On completion of a book, it must be returned to the Section Supervisor.

The register will be kept for one year for safekeeping /references.

Requirements achieved	YES		NO	
Comments in support of decision				

LEARNER ACTIVITY 10 (page 29)

You are working as a security officer at a guard post. Explain how you would use a “firearm control register” to control the movement of firearms.

- ♦ Any company firearm issued must be signed for by the security officer receiving it and signed for by the person receiving it when it is returned.
- ♦ This control document must be kept safely and can be inspected by a member of the SA Police Services (SAPS) at any time.
- ♦ Also check the license of the firearm especially with the new regulations as required by the law on guns and firearms.

4.6 Ammunition control register

- ♦ All ammunition received or purchased must be entered in this register whatever its application - e.g. duty or shooting practice.
- ♦ The total reflected in this register must correspond with the ammunition on hand.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 11 (page 31)**What is the use of a “Key control register”.**

All keys issued to any person must be entered in this register and signed for by the receiver. Keys may not be handed from one person to the other. All keys returned must be entered and signed for by the security officer receiving them.

Effective key control is essential to contribute to a manageable and professional security service rendered to customers.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 12

CASE STUDY: Read the case study below and record the situation on the attached documentation.

- ♦ OB
- ♦ Pocket book
- ♦ Incident report.
- ♦ Report

Obtain all the necessary information from the case study below. The documentation needs to be complete and contain all the necessary and correct information as outlined in the case study.

The sound of thunder and bright flashes in the sky may have been a wonderful spectacle last night, but what I didn't realize was that it would cause one of the worst days of my life. I did not know about the power failure at three this morning because I was fast asleep. The first time I realized that my alarm did not go off, was at $\frac{1}{4}$ past five this morning – which meant that I was going to be late for work. I rushed while getting dressed and did not have time to iron my uniform because I had to run to get the last taxi. In my haste I forgot to put my pocket book in my pocket, and I could not find my shoes, so I wore takies instead.

I actually made it to work, only 7 minutes late. My co-worker that had just finished night shift was not very impressed with me because he still had to do the handover. He was going to miss his taxi and would have to wait at least $\frac{1}{2}$ hour for the next one. Because I felt guilty about coming late, I told him to go – I would read the OB to get the details of the night shift....

It looked like things were eventually settling down to a normal, boring working day. Cars stop, "morning sir", "who are you visiting sir", "that would be at block C – second building on the left", "have a nice day sir". The same thing, over and over. Sometimes I feel like a tape recorder. Cars come, cars go.

In the mean time I'm still a bit unsettled from all the rushing around this morning and tired from lack of sleep because I had to settle the kids down who were crying because they're scared of the thunder and lightning.

Then the blue BMW stops at the gate about 09:20 . He hoots. So I wasn't quite as observant as I am supposed to be – I am tired, you know. I paste my smile on my face and walk up to the driver's window.

I get as far as saying: "Good morning, Sir."

"Good? – good???: so what's good about it?"

"Where is Mr. Brown? It's ten past nine. These \$%# taxis! They caused an accident that has made me late! Open this #%^ boom!"

"Sir", I say, "I have to search your vehicle before you enter." And I think to myself that this guy is so rude - I haven't done anything to him!

"Never mind about my boot, open this gate, you \$|%&*@& "%&*(%\$(%\$*0%)@*"

By now I'm getting very upset. Who does he think he is to swear at me and call me names? I'll show him....

"Sir, please get out of your vehicle and open the boot. I will not let you pass until I have searched your vehicle!" I tell him.

"Yes, you *%(%^(%#*% - I'll get out" - he swears at me again. Now he's done it. There's no way that someone insults my mother like that and gets away with it. I will search every inch of his car, and today is the day that he will not pass my boom.

He gets out of the car, and that's the last thing I remember before I see my supervisor's face and feel him shaking me. I am lying on the ground, and the boom is pointing up into the sky with blue BMW paint all over it. My jaw hurts like hell...

LEARNING UNIT 2

Duty preparation

- ♦ Explain the principles of duty preparation.
- ♦ Examine the work environment, resources and equipment when preparing for duty.
- ♦ Distinguish between delegation, authority and responsibility.
- ♦ Identify information that might effect the site for duty preparation and shift take over.
- ♦ Use various types of equipment when preparing for duty.
- ♦ Explain your understanding of professionalism and service excellence.
- ♦ Identify all resources necessary for usability.
- ♦ Demonstrate knowledge and skills to perform a maintenance check on all equipment at site.
- ♦

LEARNER ACTIVITY 1 (page 41)**List the principles of security.**

The principles of security are:

- ♦ To be so designed that they can detect the persons who endanger the security of classified information and material, and provide for their exclusion and removal.
- ♦ To minimize access to assets and materials by unauthorized persons and to protect the interest of the organisation or client you work for.
- ♦ To be based on the principles that classified information should only be made known to those who really “need to know”. Outsiders should not know if large amounts of cash is kept on the premises etc.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 2 (page 41)

You are about to start your duty at a designated site. What will you check and what will you do to ensure that the working environment is in order?

The working environment you find yourself in when doing guarding or patrolling must at all times be clean and fit for its purpose. When you are doing static guarding at a specific guard post, make sure that the environment allows you to perform your duty effectively.

For instance:

- ♦ Check that the lighting is efficient and that all lights are working.
- ♦ Check all communication equipment such as telephones and radios.
- ♦ Check that you have the required stationary to execute the duty.
- ♦ Check that all registers are available and ready for use.
- ♦ Check electronic equipment.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 3 (page 45)

Explain maintenance checks on the following equipment:

- ♦ **Communication equipment**
- ♦ **Flashlight/torch**
- ♦ **Batons**
- ♦ **Alarms**
- ♦ **Handcuffs**
- ♦ **Defensive sprays**
- ♦ **Bulletproof vests**
- ♦ **Safety equipment**

Communication equipment

During hand over and take over of shifts the officer needs to take note of the working conditions of the following:

- ♦ Antenna
- ♦ Battery
- ♦ On/Off switch
- ♦ Volume
- ♦ Squelch
- Radio number
- Condition of radio
- Channel

Flashlight/torch

At least twice yearly, clean threads and O-rings with clean cloth and apply a thin coat of silicone-based grease or lubricant to both. If flashlight is used in wet environment, lubricate O-rings frequently to maintain watertight seal. After prolonged exposure to moisture, the bezel, lamp, and batteries should be removed, inspected, and dried if necessary.

Pre shift check

- ♦ Check the lamp
- ♦ Check the battery
- ♦ Check the general condition of the flashlight.

Post shift check

- ♦ the lamp
- ♦ Check the battery
- ♦ Check the general condition

Batons

Pre-shift checks

Belt clip

- No tears or damage to the canvas material.
- The metal rivets are securely in place
- No cracks or breakages on the plastic ring.

Baton

- Batons are durable and do not need a lot of maintenance.
- Check for visible signs of wear and tear, cracks and breakages.
- Do not accept faulty equipment when starting your duty.

Post-shift checks

- Same as for pre-shift checks.

Alarms

On each shift the camera security officer should do an alarm check by checking all the alarms and panic buttons. This can be performed before assuming duty to ensure all the equipment is in good working condition.

The alarm check sheet needs to be checked, their location, their code number, the telephone number to phone when doing the check and a place to mark whether the alarm is working or not

Once completed, an OB entry should have been made stating the:

- ♦ time;
- ♦ which of the alarms are not working;
- ♦ and which of the alarms were not tested due to no personnel being present.

Ensure that all electronic equipment is in good working condition. This can be done by:

- ♦ Ensuring that each of the equipment can power on and off.
- ♦ Ensure that each of the equipment is still in working condition by authenticate the previous shifts recordings.

Handcuffs

Pre-shift checks

Pouch

- No tears in the canvas material.
- The metal rivets are securely in place with no tears in the material around them.

Handcuffs

- Handcuffs are durable and do not need much maintenance. Check for visible signs of wear and tear, cracks and breakages. Test the ratchet and locking mechanisms daily and oil them lightly from time to time.
- Ensure that the key unlocks the locking mechanism.
- Do not accept faulty equipment when signing on for duty.

Post-shift checks

- Same as for pre-shift checks.

Defensive sprays**Pre and post shift checks**

- Ensure that the safety seal, which indicates whether the trigger has been activated, is still in place.
- You should be issued with a pouch that holds the canister. Make sure that this pouch is not damaged in any way.
- Check for visible sign of damage to the canister, trigger and safety seal.
- As a rule of thumb, the weight of the canister will indicate if it is still full.
- If the seal has been broken, the trigger or pouch damaged or it feels very light, refuse to accept it and request a new canister.

Bulletproof vests**Pre-shift checks****Vest/jacket**

- No tears in the canvas material.
- The metal rivets are securely in place and have no tears around them.

Plates

- Check for visible signs of wear and tear, cracks and breakages.
- Do not re-use if it has been punctured by a bullet.
- Do not accept faulty equipment when signing on for duty.

Post-shift checks

- Same as for pre-shift checks.

Safety equipment**You must ensure that:**

- ♦ The extinguisher is not blocked by equipment, coats or other objects that could interfere with access in an emergency.
- ♦ The pressure is at the recommended level. On extinguishers equipped with a gauge (such as that shown on the right), the needle should be in the green zone - not too high and not too low.
- ♦ The nozzle or other parts are not hindered in any way.
- ♦ The pin and tamper seal (if it has one) are intact.
- ♦ There are no dents, leaks, rust, chemical deposits and/or other signs of abuse/wear.
- ♦ Wipe off any corrosive chemicals, oil, gunk etc. that may have deposited on the extinguisher.

Requirements achieved	YES	NO
Comments in support of decision		

LEARNER ACTIVITY 4 (page 42)**Explain the difference between:**

- ♦ **Delegation**
- ♦ **Authority**
- ♦ **Responsibility**

Delegation: The assignment of responsibility and accountability for specific outcomes or achievements to a specific individual or organisation unit. The delegation can be temporary or permanent.

Delegation is not the giving out of tasks or 'jobs to be done'. Normally, a delegated task takes more than a short time frame to complete. It does not involve telling people what to do, rather it involves explaining the outcomes and results they are expected to achieve. They are then expected to work out the 'how' and the steps involved.

Authority: Authority may be described as being responsible for issuing instructions for someone to execute a task, telling him/her how to do it, and where and when to do it. It includes the obligation to punish disobedience and to enforce accountability.

Responsibility: Responsibility may be described as the duty of every person with delegated authority to see to it that the tasks entrusted to his or her subordinates are carried out properly in order to attain the objectives of the organization in particular and those of the community in general.

LEARNING UNIT 3

Assume duty

- ♦ Apply applicable workplace procedures in the working environment.
- ♦ Explain preparation procedures when assuming duty.
- ♦ Explain standard operating procedure for handing over shift.
- ♦ Communicate changes in workplace procedures to colleagues and shift members.
- ♦ Identify and record non-conformances during shift take over.
- ♦ Apply procedures to assess the workplace for shift takeover.

LEARNER ACTIVITY 1 (page 59)**Explain what you understand as workplace procedures to be or standing operating procedures?**

Working as a security officer at different premises or for a specific company will determine what workplace procedures are used in their security system and in executing a specific security task.

They are seldom the same at every company. You have to adapt to these workplace procedures which will indicate how you should handle customers, your employer, how you should comply with labor legislation and so on and are determined by some of the following:

- ♦ The size of the company.
- ♦ The likelihood that certain risks will occur because of the nature of the company's business.
- ♦ The prior history of the company, in other words, the types of crimes and risks that the company has been exposed to or could expect.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 2 (page 61)

You are about to assume duty at a designated site. What basic rules must you follow regarding personal hygiene? Explain in your own words how you would prepare yourself for duty taking these factors into consideration.

- ♦ **Personal cleanliness:** We should aim for total cleanliness for our surroundings and ourselves. By keeping ourselves clean we are pleasant to be near and we remove germs that could cause sickness and disease.
- ♦ **The Skin:** The skin is a protective covering and has glands that eliminate waste products, water and certain impurities in the form of sweat. Exercise and activities such as foot patrolling increase sweating and therefore more waste matter must be removed.

Taking a bath, or washing once a day is necessary to remove stale sweat that carries the bacteria that create an unpleasant smell. A good hard rub with a rough towel increases the flow of blood in the skin and keeps it healthy. If your duty is quite active you should consider also using a deodorant.

- ♦ **The hands:** The hands should always be washed before preparing and eating meals. There are several diseases that can be caused by infecting food with dirty hands, e.g. the infectious intestinal diseases like typhoid, gastro enteritis and diarrhea.
- ♦ **Nails:** Nails should be kept short and clean. In the course of your duty your hands are often very obvious. Millions of germs can be carried in the dirt under fingernails, apart from the fact that dirty nails look unsightly, and are a sign of improper personal hygiene. Not only can you contaminate your, or someone else/s food with dirty nails, but when scratching your skin with dirty nails, you can cause these germs to enter your skin which may result in rashes or other skin diseases.

Toenails should be straight, because if they are cut down at the sides they can become ingrown, which becomes quite painful. Toenails must also be kept short, or they can cause the toe to become sore after a long march by pressing tightly against the shoes. Long toenails also ruin your socks.

- ♦ **Care of the feet:** The feet must be kept clean by frequent washing. Socks should be washed every night if they are to be kept fit for marching. Dust and dirt penetrates boots and socks and settles on the feet. If the feet are not kept clean, germs will cause an irritation of the skin that can develop into an inflammation. When washing the feet, dry well between the toes, otherwise the skin can develop a wet rash that is unpleasant and unhealthy.
- ♦ **Socks:** Thick woolen socks are the best to wear if much walking is done - for instance patrolling on foot. These socks are porous and allow air to reach the skin. They are also capable of absorbing more moisture than thinner socks. Sore feet or chafing are less likely to occur with woolen socks than with thin socks.

- ♦ **Care of the teeth:** Healthy teeth and gums are a necessary part of general good health. These are mainly achieved by daily brushing with a good toothbrush and toothpaste. Brushing the teeth should be done last thing at night and in the morning before you leave for work. Neglecting to brush the teeth results in the accumulation of old food between the teeth that cause gum disease and bad teeth. It is also the cause of bad breath.

As you are frequently in close contact with other people, bad breath is to be avoided.

- ♦ **The hair:** Your hair should be washed or cleaned often and as you are in uniform your hairstyle should be short or neatly done. Leave fancy hairstyles for weekends. The use of hair creams and grease blocks the pores of the skin and prevents the removal of waste material.
- ♦ **Clothing:** Your uniform must be clean and ironed and your shoes well polished. You must always wear the complete uniform according to your company's specifications.

Washing or cleaning your clothes regularly also make them last longer. Perspiration, dirt and germs from the skin, are absorbed into the clothing and make it unhealthy and unpleasant.

- ♦ **Mind and habits:** A clean mind and clean thoughts are essential, if you really wish to keep yourself fit. People, whose thoughts are governed by unclean sexual desires, are soon led to the risk of immoral infection and unnatural practices that not only undermine the character but involve other people as well.
- ♦ **Smoking:** If you smoke, you must know where you are allowed to smoke. Never smoke on duty. Also keep chewing gum handy to take away the smell of smoke on your breath. Although smoking is a common habit, it is harmful to the young, or to those undergoing training.
- ♦ **Spitting:** This is a filthy habit, and should be avoided. It is one of the causes of the spreading of tuberculosis.
- ♦ **Exercise:** Exercise of the voluntary muscles has an important bearing on the health and may be in the form of work, walking, climbing, riding, running, or any of the many sports.

Playing any social team sport such as soccer or rugby on your day off is great for exercising and a good way to unwind. The benefits of exercise is:

- ⇒ The muscles are better nourished, stronger and are under the control of the will.
- ⇒ The heart's action is increased and the blood is better circulated through all parts of the body.
- ⇒ The action and size of the lungs is increased, more oxygen is inhaled while carbon dioxide is eliminated. Also the circulation of the blood through the lungs improves which increases stamina.

- ⇒ The functions of the skin are stimulated and perspiration is encouraged.
 - ⇒ Increased circulation of the blood through the involuntary muscles carrying fresh nourishment to them and carrying away waste matter.
 - ⇒ Indirect stimulation and aid to the digestive system.
 - ⇒ Creates a general sense of well-being.
- ♦ **Sleep:** Sufficient sleep is essential for someone to function to the best of their ability. It is the only form of complete rest for the whole body and is necessary for the repair of both physical and mental tissues. The ideal number of hours to sleep for an adult is approximately 8 hours out of the 24 hours. If you are not getting enough sleep your concentration, judgment and reactions can become negatively affected and this can be quite dangerous for a security officer.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 3 (page 64)**Explain a typical handover procedure.**

Step 1: Book on duty in Occurrence Book.

Step 2: Prior to the changing of a shift, the hand-over between the guards must be written in the Occurrence Book and signed by both guards.

Step 3: Both guards must inspect all the entries in the Occurrence Book during the shift changing process and if there is anything still outstanding the guard that is taking over, must follow it up.

Step 4: The following must be written in Occurrence Book:

- ♦ Key word: **HANDING OVER:** Who hands over to whom?
- ♦ Specify all Office equipment
- ♦ Firearms with serial numbers: Magazine (Quantity), Ammunition (Quantity), Is it in a working condition?
- ♦ All material

- ♦ Assets

- ♦ Buildings

- ♦ Vehicles/Caravans/Trailers

- ♦ Etc.

Step 5: Do a physical inspection on all the entries in the Occurrence Book to ensure that it is correct.

Step 6: The guard that is taking over the shift must do a physical patrol with the guard that is going off duty to ensure that everything within the security controlled site, is in order.

Step 7: If found correct sign the **Handing-over.**

Step 8: If found incorrect, make an entry in Occurrence book regarding the abnormalities, co-sign it. Report it to your Supervisor.

Step 9: The guard that is going off duty must be booked "Off duty" in the Occurrence Book.

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

LEARNING OUTCOMES		1	2	3
1	Apply applicable workplace procedures in the working environment.			
2	Explain preparation procedures when assuming duty.			
3	Explain standard operating procedure for handing over shift.			
4	Communicate changes in workplace procedures to colleagues and shift members.			
5	Identify and record non-conformances during shift take over.			
6	Apply procedures to assess the workplace for shift take-over.
