1:Assessors Guide

1. Instructions to Assessor

Introduction:

This assessment guide has been designed as a generic assessment guide and is intended for use by the accredited Security Industry Training Providers.

Purpose of the assessment

The purpose of summative assessment against this unit standard is to:

- ♦ Award credits to the NQF to learners who are able to Handle and defuse security related conflict

Learning assumptions

The following knowledge, skills, attitude and/or equivalent:

- ♦ A knowledge, comprehension and application of language at NQF 02.

Assessment methods

The following assessment methods will be used for the summative assessments:

- ♦ Written and/or/verbal questioning
- ♦ Product sample and on site assessment

2. Assessment Process

General

- ♦ Use the assessment guide and your latest company policies and standard operating procedures to assess the evidence received from the learner.
- ♦ Use the section: Addition Comments/Questions to note down any further comments or questions on the evidence assessed.
- ♦ Use the model answers as a guideline to assess the learner's answers to the assessment questionnaire.
- ♦ The learner can complete the assessment questionnaire orally. In this case, agree a date, time and venue.
- ♦ Provide the learner with a feedback within 10 working days of receiving the evidence.

Step 1 - Planning for the Assessment

Review this assessment guide to:

- ♦ Ensure that you understand all the requirements of the assessment in terms of evidence required to prove competence.
- ♦ Identify and prepare the learner for the assessment by:
 - ⇒ Completing the Assessment Plan with the learner to discuss and agree the details regarding the assessment.
 - ⇒ Completing the Assessment Preparation Checklist and getting the learner to sign.
- ♦ Ensure that you have familiarized yourself with the following:
 - ⇒ Standard operating procedures for dealing with all types of emergencies.
 - ⇒ Types of emergencies
 - ⇒ Emergency evacuation drills
 - ⇒

Step 2: Complete the Assessment

- ♦ Collect the evidence in accordance with the methods and evidence requirements specified.
- ♦ Mark each question as correct or incorrect in the “Office Use” column.
- ♦ Record the evidence on the assessment guide and indicate “Competent”, “Not Yet Competent” or “Not Assessed” for each assessment criterion. Note down any comments at the back of the assessment guide.
- ♦ Ask the learner additional questions, if necessary, to clarify points. Record these on the guide.
- ♦ All questions must be complete as per the criteria specified.
- ♦ Answers provided must be similar to the model answers.

Step 3 - After the Assessment

- ♦ Prepare the feedback by writing comprehensive, developmental feedback after each section on the Assignment Sheets. In addition to this, you are required to write a summary overall feedback on the Assessment Guide.
- ♦ Provide the feedback to the learner in a safe, undisturbed in nature.
- ♦ Ensure that your feedback is developmental and supportive in nature.
- ♦ Advise the learner on what action to follow in the event of a “Not Yet Competent” rating.
- ♦ Advise the learner on what action to take where he/she feels the need to appeal against your decision.
- ♦ Allow the learner time to provide you with feedback relevant to the process.
- ♦ Record the learner’s feedback in the guide and ensure that it is given to the person responsible for the quality assurance of assessment tools.
- ♦ Ensure that the learner co-signs the assessment guide to indicate agreement with the feedback.

3. Assessment documentation required:

Step 1: Planning for the Assessment

- ♦ Assessment Plan
- ♦ Assessment Preparation Checklist
- ♦ Assessment Policy (including Appeals)
- ♦ Evidence Matrix
- ♦ Assessment Instruments

Step 2: Conducting the Assessment

- ♦ Assessor Guide
- ♦ Learner's workbook
- ♦ Summative assessment pack

Step 3: After the Assessment

- ♦ Assessment Comments
- ♦ Feedback Report

Specific Instructions

Please note that Part 3 Assessment Instruments are not included in this guide and are to be included by the assessor on an individual basis.

The actual summative assessments need to be completed and signed off by both learner and assessor. The assessor will take control of the completed assessment instruments and will file them under the tab for Assessment Evidence.

The completed assessment pack will be kept in safekeeping at the training provider for three months after endorsement by SASSETA and will then be returned to the learner.

Guidelines where an appeal is lodged

The normal appeal procedure prescribed by SASSETA and described by the provider's Quality Management System will be followed.

PRE-ASSESSMENT MEETING CHECKLIST

ACTION	YES/NO	COMMENTS
Set learner at ease; be friendly, polite and professional.		
Explain to the learner and agree on the following issues. 1. The unit standard that will be assessed 2. Date, time, venue and process to be followed during the assessment. 3. Summative assessment tools to be used for the assessment. 4. The assessment plan 5. Purpose of assessment		
Explain to the learner and agree on the role of all involved during the assessment process.		
Identify possible barriers and or disabilities of the learner.		
Explain the meaning and application of RPL.		
Explain, discuss and provide one complete set of the Appeals process documentation.		
Explain to the learner when final results will be available and how feedback will be provided.		
Discuss previous assessment results if applicable.		

I, _____ (initials and surname of learner), DECLARE THE FOLLOWING:

A copy of the unit standard(s) involved has been given to me prior to this meeting. I know I will be assessed against the criteria, which have been set to the applicable unit standards. The criteria have been discussed with me, and the procedures and purpose of the assessment has been clearly explained to me.

I am well aware of the venue, date and time that I will be assessed. I consider the period of time given to me to prepare myself for the assessment to be fair.

I understand clearly that I have the right to appeal against any decision made by the assessor during the assessment of the evidence provided by me, and that I have free access to the appeals procedures attached to this assessment pack. I understand that I have the right to be accompanied by another person during all procedures, and that I have free access to the Training Division of SBV'S Health and Safety Procedures- filed at the offices.

3:Assessment Evidence

Assessment Instruments

TAKE NOTE

The assessment instruments included in this assessment pack are all summative assessment instruments and are to be read in conjunction with the formative assessment instruments contained in the learner workbook. Both formative (workbook) and summative assessments are to be retained as part of the learner's portfolio of evidence.

A number of the assessment instruments contained in this assessment are workplace knowledge based questions.

This means that you will arrange with the learner, a time that is suitable, during which the learner will complete each questions.

QUESTION 1: Define an emergency event

An "Emergency" is an unexpected event. This event may or may not be potentially fatal, but it needs dealing with immediately. However you are a Security officer. Your job is to expect the unexpected and deal with the situation effectively. As you will see from the list below there are many different types of emergency each of these will require a different response.

Requirements achieved	YES		NO	
Comments in support of decision				

QUESTION 2: Explain the risk assessment process during an emergency.**The “WWW.SAFE” Protocol!**

Using the following protocol will help get you thinking in the right kind of way. It is a tool to remind you of the things you need to consider in dealing with any situation, emergency or not.

- ♦ **Stop:** There is a saying, “...only fools, rush in...” make sure you are not a fool. Just because you are a trained security officer does not mean you now have super powers! You playing the hero to save one person, may cost other people their lives. In fact, you could easily become a danger to everyone around you.
- ♦ **Assess:** Consider all of the following:
 - ⇒ **W = What:** What has happened; what is happening; what objects are available, to you or them.
 - ⇒ **W =Where:** Where are you; what are your surroundings; is it light; is it dark, where are the entrances; where are the exits; where can you hide; where should you tell people to go.
 - ⇒ **W = Who:** Who are you dealing with; Is there more than one; Are they safe; Are they unconscious, How big are they; Will you need help?
- ♦ **Find a Solution:** You must try to create a, win – win, situation whenever possible. The best way to do this is too look and listen. Focus on giving everyone the best service you can. However, you must never make a promise you cannot personally deliver. Make sure you know your limitations – do not hesitate to ask for help. Once again the more you practice, the more solutions you will have available.
- ♦ **Exit Safely:** Remember you are responsible for everybody’s safety – good or bad. Therefore, have an exit plan in place. This plan should be simple and effective and easily explained. It should cover everything, from an upset customer, to terrorist attack. Fortunately, many places have policies and procedures, which cover, these events. However, if not it is up to you to work out your own plan to make sure you get home at the end of each day.

QUESTION 3: Explain the three types of emergencies.

- ♦ **Natural disasters:** This category is normally referred to as “acts of God” and include earth quacks, floods, lightning, tornado’s and wild fires.
- ♦ **Abnormal incidents or accidents:** This category refers to incidents caused by human error and include the following; explosions, industrial accidents, chemical spills etc.
- ♦ **Intentional threats:** This category refers to incidents caused by intentional human acts, and include for example the following; riots, industrial action, terrorism, bomb and bomb threats as well as hostage situation (Du Preez 1990:359).

QUESTION 4: Explain the procedure to follow in the event of an explosion.

If the building you're in is collapsing or there's an explosion, here's what you should do:

- ◆ Leave as quickly as possible.
- ◆ Stay calm.
- ◆ Do NOT use elevators. The power might go out, and you will be stuck.
- ◆ Take your emergency kit with you if you have time.
- ◆ If you can't get out of the building, go under a stable piece of furniture, like a table or desk.

If you get trapped by debris, here are some tips to stay alive:

- ◆ Try not to move around too much. You might kick up too much dust, making it hard to breathe.
- ◆ Cover your nose and mouth with a cloth to avoid breathing harmful dust and smoke.
- ◆ To let rescuers know where you are, tap on a pipe or wall. Or you can use a whistle. Avoid shouting since this could cause you to breathe in a dangerous amount of dust.
- ◆ If you have a flashlight, use it to see and to let rescuers know where you are.

QUESTION 5: You receive a telephone bomb threat while executing your duty at a designated site. What must you do and what must you keep in mind?

Try to keep the caller on the line as long as possible. Do your best to write down or record the conversation. You should also write down things like the caller's voice and any background noise. The more information you can tell authorities, the better. See example of recording document on the next page.

[illegible]Comments in support of decision

QUESTION 6: You receive a package from a visitor. The package is addressed to a person which is not working anymore. On investigation you realize that the person does not even exist. What must you do and what must you keep in mind?

How do you know if a letter or package is suspicious?

To determine if the letter or package is suspicious, check to see if it has one or more of the following characteristics:

- ◆ It is not addressed to anyone in particular. Or it is addressed to someone who no longer lives or works at that address.
- ◆ The label is handwritten or poorly typed. It may contain typos, misspellings and incorrect information.
- ◆ There is no return address or a strange return address.
- ◆ It says things like "To Be Opened in the Privacy of," "Confidential," "Personal," "Do not X-ray," or "Prize Enclosed."
- ◆ There is more postage on the package or letter than is necessary. Or there's no postage at all.
- ◆ It is hand-delivered by someone who's not an official mail carrier.
- ◆ It is unusually heavy for its size.
- ◆ It has a strange shape or is lopsided.
- ◆ There is an unusual amount of tape on it.
- ◆ It smells funny, is leaking, is a strange color, or has oily stains.
- ◆ There is a strange powder on the outside.
- ◆ It has writing that you don't understand on it.
- ◆ It's wrapped in string. Packages today no longer need to be wrapped in twine or string.
- ◆ You received a phone call from an unknown person asking if the package or letter was received.

You've determined that the letter or package is suspicious. Here's what you should do now:

- ◆ Put it down immediately and carefully.
- ◆ Place it on a stable surface, like a table or the floor.
- ◆ Cover it with trash can or a plastic bag.
- ◆ Phone the 10111.
- ◆ Let others in the building know about the package and tell them to leave the area. If you think you've been exposed to any dangerous materials that might be inside or on the package, try not to go too far from the area. That way, you will hopefully not spread the contamination.
- ◆ If you touched the package, wash your hands with soap and lukewarm water.
- ◆ Remember details. Make a list of all the people who were in the area or room where the letter or package was seen.

QUESTION 7: What is the minimum that needs to be included into a emergency plan.

- ♦ Since not all disasters are the same, dealing with each of the types most likely to occur may require specialised training and equipment;
- ♦ Training should include the actual use of different kinds of equipment that might be needed in a given situation;
- ♦ Training should not be given only once or infrequently;
- ♦ Certain types of incidents may require training of all employees and not just security personnel. If a contract security company is used own employees must be trained to respond to emergencies;
- ♦ Training must cover both what should be done and what should not be done;
- ♦ All response team personnel should be trained to function in any assigned role; and
- ♦ Training must be given by qualified trainers.

Requirements achieved	YES		NO

QUESTION 8: Explain the responsibility of the emergency controller.

- ♦ Classifying the emergency and initiating action;
- ♦ Activating emergency teams;
- ♦ Ordering shutdown (partial or full);
- ♦ Ordering evacuation (partial or full);
- ♦ Reporting to management;
- ♦ Making emergency announcements;
- ♦ Requesting aid or other assistance; and.
- ♦ Coordinating emergency actions

Requirements achieved	YES		NO	
Comments in support of decision				

QUESTION 9: List the golden rules that needs to be considered during an evacuation.

- ♦ Stay calm;
- ♦ Do not run (walk briskly);
- ♦ Keep to the left of emergency escape routes;
- ♦ Assist disabled persons;
- ♦ Do not use lifts;
- ♦ Ladies must remove their high heeled shoes; and
- ♦ Do not flock together and walk in single file.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

QUESTION 10: Explain the function of assembly points.

The assembly points are multi functional, and include the following:

- ♦ to provide emergency teams the opportunity to do roll call and to determine if any personnel is unaccounted for;
- ♦ To ensure stability and order to the evacuation plan;
- ♦ To avoid panic;
- ♦ To treat any injuries; and.
- ♦ To provide a central point of control over the “masses”

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

QUESTION 11: List the responsibility of security during emergencies

- ♦ Access control
- ♦ Traffic control
- ♦ Protection of property
- ♦ Direction and control of personnel
- ♦ Direction and control of evacuation procedures.
- ♦ Assistance in first aid, rescue, fire fighting and other emergency needs.
- ♦ Protection of vital information, documents and records.
- ♦ Establish communication with outside agencies

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

QUESTION 12: Explain the types of evacuations♦ **Partial Evacuation**

This action is necessary where a suspicious object is found or when a specific place was indicated by a person making a bomb threat. It will also be ordered where a fire is localized and can be easily contained. The term partial evacuation means the following:

Only the area that is affected by the emergency is evacuated. Other areas not affected will not be evacuated. This limits the risk of injury to personnel and the damage to property.

♦ **General evacuation**

The decision to order a general evacuation is a difficult one to take because of the accompanying responsibility and the problems it may cause. The term general evacuation means the following:

All of the areas that is affected by the emergency as well as those that is not affected is evacuated. The whole company, personnel and visitors will have to evacuate the premises.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

QUESTION 13: Explain the evacuation procedures to be followed during a fire in a building

If a fire is discovered, there are three major considerations:

- ♦ raising the alarm,
- ♦ fighting the fire,
- ♦ and evacuating the building.

The priority of these will be determined by the circumstances, but personal safety is paramount at all times. The organizational procedure will be adhered to in all regards.

Ask yourself these questions when determining whether to fight a fire with a portable extinguisher or evacuate the building.

- ♦ **Is the fire small enough to be controlled by a portable extinguisher?** The time to use a portable extinguisher is during the early stages of a fire. Once a fire starts to spread, your best option is to evacuate the building.
- ♦ **Am I safe from toxic smoke and gasses?** Remember that all fires produce carbon monoxide. Carbon monoxide is a colorless, odorless toxic gas. Many fires will produce other toxic gasses in addition to carbon monoxide. If the fire is producing large amounts of smoke, or you suspect the fire involves a hazardous material, your best option is to evacuate the building.
- ♦ **Do I have an escape route?** Before attempting to extinguish a fire, always ensure you have a reliable escape route. If you are in a room or confined area, position yourself between the fire and the exit door. In other words, when you are facing the fire the exit door should be at your back, ensuring you are not trapped if the fire is not quickly extinguished.
- ♦ **Do I have the right extinguisher?** Make sure the extinguisher's label indicates it is rated for use in fighting the type of fuel that is burning, and check if the extinguisher is fully charged. If the extinguisher is not fully charged, or is not the proper type, your best option is to evacuate the building. You can find information about extinguisher ratings in the learning program Basic Fire Fighting.
- ♦ **What do my instincts tell me?** If you do not feel comfortable trying to extinguish the fire, do not attempt to. Evacuate the building and let the fire department do their job. Remember: firefighters have equipment, training, and experience that you do not possess.

This image shows a blank sheet of white paper with ten horizontal black lines. The lines are evenly spaced and run across the width of the page, providing a template for writing or drawing.

QUESTION 14: List some of the reactions a victim can experience during an emergency.

People can suffer greatly in the aftermath of crime and may experience a range of reactions, depending on the severity of the crime. These may include:

- ♦ headaches,
- ♦ insomnia,
- ♦ anxiety,
- ♦ relationship problems
- ♦ and a temporary inability to cope with every day living.

Requirements achieved	YES		NO	
Comments in support of decision				

QUESTION 15: Complete the emergency signs.

(1)Disabled fire exit arrow right

(2)Fire exit arrow up

(3)Fire exit arrow down

(4)Fire exit arrow up sign

(5)Fire exit straight arrow sign

(6)Fire exit Running man only right sign
