This material has been compiled based on the **UNIT STANDARD 12484 PERFORM BASIC FIRE FIGHTING**

The program has been accredited by SASSETA in the Republic of South Africa.

Material compiled by: Training Dynamics Africa

HOW THIS LEARNER WORKBOOK IS COMPILED

This learner workbook has been compiled to guide you through the skills, values and knowledge reflected in this unit standard are required by people in the field of manufacturing and engineering. The learning outcomes in this unit standard also contribute to the exit level outcomes required for various manufacturing and engineering qualifications. Qualifying learners can select and use the appropriate fire fighting equipment to extinguish or control fires in the workplace.

1. Discuss and explain procedures for dealing with fires in the workplace.
2. identify the type of fire, its context and select the appropriate fire fighting procedure.
3. Identify, select and check appropriate fire fighting and safety equipment.
4. Fight containable / extinguishable fires.
5. Retreat from fire site and hand over to appropriate personnel.
6. Report / record status of fire and equipment.

You have to study the content and guidelines given in your learner reference guide to complete this workbook.

Remember that this completed workbook must be handed in as it will form part of your formative assessment and will play a role in awarding you the required credits that are to be achieved upon completion of this unit standard.

Write neatly and legibly and ensure that you do not simply copy the information contained in the learner reference guide into your workbook. Give your own opinion and ideas where applicable and write the answers in your own words to indicate your level of understanding and learning.

Good luck with the completion of this workbook.

LEARNING UNIT 1

Types of fires

LEARNING OUTCOMES

A learning credited with this unit will be able to:

1. Define a fire
2. Identify the elements of a fire
3. Demonstrate knowledge of the different types of fire
4. Identify the various causes of a fire

LEARNER ACTIVITY 1**Define the word fire.**

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Explain the elements of a fire in detail. Motivate your answer by drawing the fire triangle.

[illegible]

Make your drawing here:

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 3

Complete the attached diagram by filling in the missing blocks.

CLASSES OF FIRE		DESCRIPTION
A	 Common materials, such as paper, wood or most other combustibles.	
B	 Flammable liquids, such as gasoline paint remover or grease.	Inflammable liquids such as gasoline or paint thinner.
C	 Electrical fires.	
D	 Combustible metals, usually found in industry.	Burning reactive metals, such as sodium, magnesium, titanium, and so forth. Such metals not only burn at high temperatures but can chemically extract oxygen from water and even carbon dioxide.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

LEARNER ACTIVITY 4**List three causes of a fire.**

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

LEARNING OUTCOMES		1	2	3
1	Define a fire			
2	Identify the elements of a fire			
3	Demonstrate knowledge of the different types of fire			
4	Identify the various causes of a fire

LEARNING UNIT 2

Fire Prevention

LEARNING OUTCOMES

A learning credited with this unit will be able to:

1. Demonstrate knowledge of the goals of preventing a fire.
2. Demonstrate skills and knowledge to setup a strategy to prevent a fire.
3. List general measures to prevent a fire.

LEARNER ACTIVITY 1

List four goals to prevent a fire.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Explain the strategy of preventing a fire in detail.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.Comments in support of decision

List four general measures to prevent a fire.

[illegible]

Comments in support of decision

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

LEARNING OUTCOMES		1	2	3
1	Demonstrate knowledge of the goals of preventing a fire			
2	Demonstrate skills and knowledge to setup a strategy to prevent a fire			
3	List general measures to prevent a fire

LEARNING UNIT 3

Housekeeping

LEARNING OUTCOMES

A learning credited with this unit will be able to:

1. Demonstrate the importance of house keeping
2. Apply good housekeeping guidelines according to company SOP
3. Demonstrate knowledge of storage guidelines

Explain the importance of good housekeeping.

[illegible]Comments in support of decision

Analyze the following statement and record your views.

[illegible]

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Discuss at least three storage guidelines.

[illegible]

[illegible]

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Draw a table indicating at least four do's and don'ts concerning housekeeping.

[illegible]

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins or other markings on the paper.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

LEARNING OUTCOMES		1	2	3
1	Demonstrate the importance of house keeping			
2	Apply good housekeeping guidelines according to company SOP			
3	Demonstrate knowledge of storage guidelines

LEARNING UNIT 4

Fire fighting equipment

LEARNING OUTCOMES

A learning credited with this unit will be able to:

1. Know the different types of fire extinguishers
2. Know the use of the different types of fire extinguishers
3. Identify the correct fire extinguisher to fight a specific class of fire
4. How to operate a fire extinguisher
5. Know the location and operation of a fire hose

This image shows a blank sheet of white paper with ten horizontal blue lines. The lines are evenly spaced and run across the width of the page, providing a guide for handwriting practice. There is no text or other markings on the paper.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Explain the correct use of the following fire extinguishers.

-
- This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Requirements achieved	YES	NO
-----------------------	-----	----

Comments in support of decision

LEARNER ACTIVITY 3

Demonstrate the correct use of a fire extinguisher by applying the correct method.

Complete the attached diagram and then move outside to demonstrate your skill to the facilitator/assessor.

Requirements achieved	YES		NO	
Comments in support of decision				

"P" stands for _____

"A" stands for AIM

This is important - in order to put out the fire, you must extinguish the fuel.

"S" stands for _____

"S" stands for _____

WHY : _____

LEARNER ACTIVITY 4

Explain the correct procedure to use a fire hose.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

LEARNING OUTCOMES		1	2	3
1	Know the different types of fire extinguishers			
2	Know the use of the different types of fire extinguishers			
3	Identify the correct fire extinguisher to fight a specific class of fire			
4	How to operate a fire extinguisher			
5	Know the location and operation of a fire hose

LEARNING UNIT 5

Fighting Fire

LEARNING OUTCOMES

A learning credited with this unit will be able to:

1. Make the correct decision in the process of fighting a fire
2. Stop a fire by using the correct equipment and procedure
3. Apply general precautions when fighting a fire
4. Identify and apply the correct procedures after a fire has been put out accordingly to SOP

LEARNER ACTIVITY 1

What is the single most important factor to remember when fighting a fire?

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Explain and discuss the general procedures when fighting a fire.

[illegible]

Comments in support of decision

What needs to be done after the fire has been put out?

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins or other markings on the paper.

Comments in support of decision

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

LEARNING OUTCOMES		1	2	3
1	Make the correct decision in the process of fighting a fire			
2	Stop a fire by using the correct equipment and procedure			
3	Apply general precautions when fighting a fire			
4	Identify and apply the correct procedures after a fire has been put out accordingly to SOP

LEARNING UNIT 6

Maintenance

LEARNING OUTCOMES

A learning credited with this unit will be able to:

1. Apply basic maintenance on fire fighting equipment

Explain the importance of maintenance with specific reference to a fire extinguisher.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.Comments in support of decision

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully
