1: Assessors Guide

1. Instructions to Assessor

Introduction:

This assessment guide has been designed as a generic assessment guide and is intended for use by the accredited Security Industry Training Providers.

Purpose of the assessment

The purpose of summative assessment against this unit standard is to:

- ♦ Award credits to the NQF to learners who are able to Handle and defuse security related conflict

Learning assumptions

The following knowledge, skills, attitude and/or equivalent:

- ♦ A knowledge, comprehension and application of language at NQF 02.

Assessment methods

The following assessment methods will be used for the summative assessments:

- ♦ Written and/or/verbal questioning
- ♦ Product sample and on site assessment

2. Assessment Process

General

- ♦ Use the assessment guide and your latest company policies and standard operating procedures to assess the evidence received from the learner.
- ♦ Use the section: Addition Comments/Questions to note down any further comments or questions on the evidence assessed.
- ♦ Use the model answers as a guideline to assess the learner's answers to the assessment questionnaire.
- ♦ The learner can complete the assessment questionnaire orally. In this case, agree a date, time and venue.
- ♦ Provide the learner with a feedback within 10 working days of receiving the evidence.

Step 1 - Planning for the Assessment

Review this assessment guide to:

- ♦ Ensure that you understand all the requirements of the assessment in terms of evidence required to prove competence.
- ♦ Identify and prepare the learner for the assessment by:
 - ⇒ Completing the Assessment Plan with the learner to discuss and agree the details regarding the assessment.
 - ⇒ Completing the Assessment Preparation Checklist and getting the learner to sign.
- ♦ Ensure that you have familiarized yourself with the following:
 - ⇒ Types of fire extinguishers
 - ⇒ Types of fires
 - ⇒ Fire hoses
 - ⇒ Basic fighting fire techniques

Step 2: Complete the Assessment

- ♦ Collect the evidence in accordance with the methods and evidence requirements specified.
- ♦ Mark each question as correct or incorrect in the “Office Use” column.
- ♦ Record the evidence on the assessment guide and indicate “Competent”, “Not Yet Competent” or “Not Assessed” for each assessment criterion. Note down any comments at the back of the assessment guide.
- ♦ Ask the learner additional questions, if necessary, to clarify points. Record these on the guide.
- ♦ All questions must be complete as per the criteria specified.
- ♦ Answers provided must be similar to the model answers.

Step 3 - After the Assessment

- ♦ Prepare the feedback by writing comprehensive, developmental feedback after each section on the Assignment Sheets. In addition to this, you are required to write a summary overall feedback on the Assessment Guide.
- ♦ Provide the feedback to the learner in a safe, undisturbed in nature.
- ♦ Ensure that your feedback is developmental and supportive in nature.
- ♦ Advise the learner on what action to follow in the event of a “Not Yet Competent” rating.
- ♦ Advise the learner on what action to take where he/she feels the need to appeal against your decision.
- ♦ Allow the learner time to provide you with feedback relevant to the process.
- ♦ Record the learner’s feedback in the guide and ensure that it is given to the person responsible for the quality assurance of assessment tools.
- ♦ Ensure that the learner co-signs the assessment guide to indicate agreement with the feedback.

3. Assessment documentation required:

Step 1: Planning for the Assessment

- ♦ Assessment Plan
- ♦ Assessment Preparation Checklist
- ♦ Assessment Policy (including Appeals)
- ♦ Evidence Matrix
- ♦ Assessment Instruments

Step 2: Conducting the Assessment

- ♦ Assessor Guide
- ♦ Learner's workbook
- ♦ Summative assessment pack

Step 3: After the Assessment

- ♦ Assessment Comments
- ♦ Feedback Report

Specific Instructions

Please note that Part 3 Assessment Instruments are not included in this guide and are to be included by the assessor on an individual basis.

The actual summative assessments need to be completed and signed off by both learner and assessor. The assessor will take control of the completed assessment instruments and will file them under the tab for Assessment Evidence.

The completed assessment pack will be kept in safekeeping at the training provider for three months after endorsement by SASSETA and will then be returned to the learner.

Guidelines where an appeal is lodged

The normal appeal procedure prescribed by SASSETA and described by the provider's Quality Management System will be followed.

PRE-ASSESSMENT MEETING CHECKLIST

ACTION	YES/NO	COMMENTS
Set learner at ease; be friendly, polite and professional.		
Explain to the learner and agree on the following issues. 1. The unit standard that will be assessed 2. Date, time, venue and process to be followed during the assessment. 3. Summative assessment tools to be used for the assessment. 4. The assessment plan 5. Purpose of assessment		
Explain to the learner and agree on the role of all involved during the assessment process.		
Identify possible barriers and or disabilities of the learner.		
Explain the meaning and application of RPL.		
Explain, discuss and provide one complete set of the Appeals process documentation.		
Explain to the learner when final results will be available and how feedback will be provided.		
Discuss previous assessment results if applicable.		

I, _____ (initials and surname of learner), DECLARE THE FOLLOWING:

A copy of the unit standard(s) involved has been given to me prior to this meeting. I know I will be assessed against the criteria, which have been set to the applicable unit standards. The criteria have been discussed with me, and the procedures and purpose of the assessment has been clearly explained to me.

I am well aware of the venue, date and time that I will be assessed. I consider the period of time given to me to prepare myself for the assessment to be fair.

I understand clearly that I have the right to appeal against any decision made by the assessor during the assessment of the evidence provided by me, and that I have free access to the appeals procedures attached to this assessment pack. I understand that I have the right to be accompanied by another person during all procedures, and that I have free access to the Training Division of SBV'S Health and Safety Procedures- filed at the offices.

3: Assessment Evidence

Assessment Instruments

TAKE NOTE

The assessment instruments included in this assessment pack are all summative assessment instruments and are to be read in conjunction with the formative assessment instruments contained in the learner workbook. Both formative (workbook) and summative assessments are to be retained as part of the learner's portfolio of evidence.

A number of the assessment instruments contained in this assessment are workplace knowledge based questions.

This means that you will arrange with the learner, a time that is suitable, during which the learner will complete each questions.

OBSERVATION CHECKLISTS

- ♦ **Identification of the classes of fires:**
- ♦ **Identify the type of fire extinguisher:**

No	Evidence required: Did the learner adhere to:	Judgment		Assessor's comments in support of judgment (where required)
		Achieved	Not Achieved	
ACTIVITY: Class A				
	Ordinary Combustibles (paper, trash, wood etc.)			_____
	Water extinguisher			_____
	Dry chemical			_____
ACTIVITY: Class B				
	Inflammable liquids (gasoline, petrol etc.)			_____
	Dry chemical			_____
	CO2			_____
ACTIVITY: Class C				
	Electrical fires (electricity still flowing)			_____
	Dry chemical			_____
	CO2			_____
ACTIVITY: Class D				
	Burning reactive metals (sodium, magnesium, titanium etc.)			_____
	CO2			_____
	Dry chemical			_____

Question 1: Explain the elements of a fire in detail. Motivate your answer by drawing the fire triangle.

- ♦ Enough oxygen to sustain combustion,
- ♦ Enough heat to raise the material to its ignition temperature,
- ♦ Some sort of fuel or combustible material, and
- ♦ The chemical reaction that is fire.

The Fire Triangle

Make your drawing here:

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Question 2: List three causes of a fire.

- ♦ **Careless smoking** is the leading cause of residential fire deaths. Smoke detectors and smolder-resistant bedding and upholstered furniture are significant fire deterrents.
- ♦ **Arson** is the second largest cause of residential fires and residential fire deaths. In commercial properties, arson is the major cause of deaths, injuries and dollar loss.
- ♦ **Heating** is the third leading cause of residential fire deaths. Heater fires are the leading cause of fire deaths.
- ♦ **Cooking** is the leading cause of apartment fires and the second most frequent cause of single-family residential fires. These fires often result from unattended cooking and human error, rather than from mechanical failures of stoves or ovens.
- ♦ **Wiring**, outlets, switches, circuit breakers and other electrical devices are the third leading cause of fires and the second leading cause of fire deaths.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Question 3: List four goals to prevent a fire.

- ♦ **Saving lives:** The primary goal of fire safety efforts is to protect building occupants from injury and to prevent loss of life.
- ♦ **Protecting property:** The secondary goal of fire safety is to prevent property damage.
- ♦ **Protecting operations:** By preventing fires and limiting damage we can assure that work operations will continue.

Requirements achieved	YES		NO	
Comments in support of decision				

Question 4: List four general measures to prevent a fire.

- ♦ **Smoke Detector:** It is important to have smoke detectors installed on each floor.
- ♦ **Emergency Numbers:** While you should call emergency services if there is a fire, do not call from the location of the fire. You will be wasting valuable time you can be using to save your life.
- ♦ **Have a plan:** Make sure everyone is familiar with the evacuation plan and the location of the emergency doors. This is because if one exit route is blocked, you have a backup plan. Also, agree on a place to meet to do a “head count” once you evacuate the building.
- ♦ **Heaters:** Any portable heater should be kept at least a meter from anything that can burn (including the wall).
- ♦ **Matches:** It is very important to **keep matches and lighters out of a child’s reach**. Also, do not keep any near your fireplace.
- ♦ **Cooking:** Keep the cooking areas clear of combustibles. Make sure to keep all pot handles turned inward so they are not accidentally knocked over. Try to wear short sleeves or fitted clothes so your sleeves don’t catch fire.
- ♦ **Fireplace:** Before each new heating season, it is a good idea to have your chimney cleaned. Also, do not keep any matches, newspapers, or kindling near the fireplace.
- ♦ **Clothes Dryer:** Never leave your clothes dryer on when you are not home.
- ♦ **Electric appliances & wiring**

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Question 5: Explain the importance of good housekeeping.

- ♦ To reduce amounts of flammable and combustible materials.
- ♦ To reduce ignition hazards.
- ♦ To ensure safe emergency evacuation of occupants.
- ♦ To allow for quick emergency response.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Question 6: Discuss at least three storage guidelines.

- ♦ No storage is allowed in corridors and stairwells. A cluttered hallway could slow down emergency evacuation.
- ♦ Storage must not exceed plane of 18 inches below sprinkler heads or smoke detectors. Storage that breaks this plane may prevent sprinkler heads from fully covering room during a fire.
- ♦ All storage must be at least 3 ft from electrical panels. In some emergency situations it will be necessary to access these panels quickly.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Question 7: You and your friend are having coffee when the coffee machine in cafeteria suddenly blows up.

There is a lot of electronic equipment all around the coffee machine. The flames are spreading very rapidly.

- ♦ What fire extinguisher will you use to extinguish the fire?
- ♦ How will you know that the fire extinguisher is the correct one?

Class C: Fires involve electrical equipment, such as appliances, wiring, circuit breakers and outlets. Class C extinguishers do not have a numerical rating. **The C classification means the extinguishing agent is non-conductive**

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Question 8: Explain and discuss the general procedures when fighting a fire.

Always keep the exit to your back while fighting a fire, and if your efforts don't seem to be successful, leave the area, closing doors behind you to assist in keeping the fire from spreading.

Once you are safe, call your local fire Department immediately.

Requirements achieved	YES		NO	
-----------------------	-----	--	----	--

Comments in support of decision

Question 9: Explain the importance of maintenance with specific reference to a fire extinguisher.

- ♦ The extinguisher is not blocked by equipment, coats or other objects that could interfere with access in an emergency.
- ♦ The pressure is at the recommended level. On extinguishers equipped with a gauge (such as that shown on the right), the needle should be in the green zone - not too high and not too low.
- ♦ The nozzle or other parts are not hindered in any way.
- ♦ The pin and tamper seal (if it has one) are intact.
- ♦ There are no dents, leaks, rust, chemical deposits and/or other signs of abuse/wear.
- ♦ Wipe off any corrosive chemicals, oil, gunk etc. that may have deposited on the extinguisher.

Requirements achieved	YES		NO
