MODEL ANSWERS

FORMATIVE ASSESSMENT (OPEN BOOK EXAM)

CONDUCT ACCESS AND EGRESS CONTROL

UNIT STANDARD 244189

Full Name and Surname: _____

ID Number: _____ Date of Assessment: _____

Name of Assessor: _____

Learner Signature: _____ Assessor Signature: _____

Pass mark is 70% (133 out of 192)

Competent: ☐

Not Yet Competent: ☐

SKILLS PROGRAM 2
BOOK 1

1. Fill in the missing words. **(3 Marks)**

*Physical access control is a matter of who, where, and when. An access control system determines **who** is allowed to enter or exit, **where** they are allowed to exit or enter, and **when** they are allowed to enter or exit.*

2. List the 4 (four) basic access control objectives. **(4 Marks)**

- ◆ Permit or deny entry to or presence in a given place;
- ◆ Increase or reduce the rate or density of movement to, from or within a defined place;
- ◆ Protect persons, materials or information against unauthorised observation or removal; and
- ◆ Prevent injury to people or damage to material (Auerbach 2003:187).

3. List the 2 (two) basic egress control objectives. **(2 Marks)**

- ◆ To ensure that company assets are not taken out of the premises without the necessary approval; and
- ◆ It creates an additional layer of protection and acts as a crime deterrent i.e. employee theft, shoplifting etc.

4. List 5 (five) aspects of outer layers of protection. **(5 Marks)**

- ◆ Size, layout, utilities, and compositional materials;
- ◆ Internal activities;
- ◆ Assets in or forming part of the site;
- ◆ Security experience of the security manager;
- ◆ Philosophy of the site's ownership or management; and
- ◆ Culture of the workforce.

5. Name 2 (two) security advantages of barriers. **(2 Marks)**

- ◆ To control the movement of people, vehicles into, out of, within the facility;
- ◆ Segregate or compartmentalize sensitive areas; and
- ◆ Provide physical protection to objects, materials, and processes of a critical nature.

6. List 5 (five) standard security instructions which must be observed by all security staff. **(5 Marks)**

- ◆ Departmental (Site) policies and procedures;
- ◆ Access control, guarding and patrolling duties and procedures;
- ◆ Maintenance of security records and registers;
- ◆ Reporting of incidents, fire and other emergency procedures;
- ◆ Standards of appearance, uniform and use of equipment;
- ◆ Duties in respect of security technical aids, hardware and alarm systems;
- ◆ Use of drugs alcohol, firearms and other dangerous weapons; and
- ◆ Other matter of a routine nature applicable to security staff (Mckenzie, McLoughlin & Twiss 1983:42).

7. Is the following definition true or false? **(1 Mark)**

A turnstile, also called a baffle gate, is a form of gate which allows more than one person to pass at a time.

FALSE

8. List 7 (seven) types of identification cards. **(7 Marks)**
- ◆ Hollerith
 - ◆ Magnetic stripe
 - ◆ Barium ferrite
 - ◆ Bar code
 - ◆ Wiegand
 - ◆ Proximity
 - ◆ Smart card
9. List 5 (five) biometric access control systems. **(5 Marks)**
- ◆ Hand geometry systems
 - ◆ Fingerprints
 - ◆ Retinal patterns
 - ◆ Signature verification
 - ◆ Voiceprints
10. Before access control methods can be established, access control duties need to be established. List 8 (eight) access control duties. **(8 Marks)**
- ◆ What gates are manned permanently by security staff?
 - ◆ Are there other gates, including railway gates?
 - ◆ If so, when are they open and in what circumstances?
 - ◆ Who is responsible for opening and closing these gates?
 - ◆ Where are the keys kept?
 - ◆ What actions are required at the gates by security officers;
 - ◆ When vehicle enter – to collect goods, to collect scrap and waste materials, for any other purpose for example delivery at stores etc.
 - ◆ When vehicles leave – after collecting goods, after collecting scrap or waste materials, after making deliveries at stores etc.
 - ◆ When employees wish – to enter at unusual times – to leave at unusual times – to bring in large parcels and cases – to take borrowed tools away – to return borrowed tools – to remove purchases of company products from the premises.
 - ◆ When requests are received for keys of premises at – usual times – unusual times.
 - ◆ When property is reported as having been found on the premises.
 - ◆ When property is reported lost on the premises.
 - ◆ A fire is reported to have occurred on the premises (MacKenzie et al 1983:115)
 - ◆ Are vehicles and persons going to be escorted when they enter the premises?
 - ◆ Where is the most sensitive areas on site, is there a higher security access control standard, for example, required at the chemical lab than at the dispatch store room?
11. Specific site access control procedures should be in place with regard to emergency situations. List 4 (four) of these emergency situations. **(4 Marks)**
- ◆ Medical emergencies
 - ◆ Fire emergencies
 - ◆ Armed robbery
 - ◆ Assembly areas
 - ◆ Suspicious mail and packaged
 - ◆ Explosions
 - ◆ Chemical spills
 - ◆ Re-entry of evacuated buildings

12. Fill in the missing words: **(10 Marks)**
- ♦ **Medical Emergencies:** Access should be controlled at medical scenes to ensure that the **paramedics** can perform their duties without **interference** from bystanders.
 - ♦ **Fire Emergencies** During a fire emergency access to buildings needs to be **controlled** and **limited** to fire teams and the fire department on arrival.
 - ♦ **Armed Robbery:** When an armed robbery or any other crimes are committed, access to the scene should be **limited** to ensure that the crime scene is not **contaminated**. The crime scene should be **secured** and only the **police** should be allowed on the crime scene.
 - ♦ **Assembly Areas:** Access and egress needs to be **controlled** at assembly points to ensure that all persons can be **accounted** for during an emergency.
13. Which 5 (five) aspects need to be controlled during access and egress control. **(5 Marks)**
- ♦ Employees
 - ♦ Visitors
 - ♦ Contractors
 - ♦ Vehicles
 - ♦ Goods
14. List the 9 (nine) steps (procedures) to be followed at an access and egress control point. **(9 Marks)**
1. Entrance gate
 2. Arrival of external visitors
 3. Arrival of site employees
 4. Protecting authorities
 5. Searching vehicles
 6. Tool list
 7. Removal permits
 8. Vehicles after hours
 9. Exiting of visitors/employees
15. Which procedures should be followed for an emergency at an access and egress control point? **(7 Marks)**
- ♦ Step 1: Identify type/nature of emergency.
 - ♦ Step 2: Determine seriousness of emergency.
 - ♦ Step 3: Determine immediate threat.
 - ♦ Step 4: Respond to the emergency according to the site Emergency Preparedness Plan.
 - ♦ Step 5: Stabilize the situation, if possible.
 - ♦ Step 6: Report immediately to Manager/Supervisor, and Site Manager/ Supervisor.
 - ♦ Step 7: Make an entry in the Occurrence Book.
16. Which functions could be included in an access/egress control system? List 5 (five) **(5 Marks)**
- ♦ Supervision of access and/or egress of regular employees.
 - ♦ Control of visitors and contractors.
 - ♦ Control of delivering or dispatching of goods.
 - ♦ Conducting of authorized searches.
 - ♦ Supervision of access or egress of all vehicles, including the searching of such vehicles.
 - ♦ Escorting persons or vehicles in high risk areas.
 - ♦ Keeping record of the above.

17. Fill in the missing words: (access/egress control of people, vehicles and goods) **(10 Marks)**
The best way of identifying persons is by an identification card system (visibly displayed on the individual).

- ◆ *This identification card system couples to a list of persons authorized for access provides further confirmation. The list must be **current**.*
- ◆ *Electro-magnetic card systems must be based on the **card-key** principle.*
- ◆ *Visitors and **contractors** must give their name and purpose of visit to the **access control** security officer. This information should be checked against some form of **identification** e.g. ID book or passport.*
- ◆ *The visitor must be checked with the person being **visited** and if approved, the visitor's particulars must be recorded in a **visitor's register**. A visitor's card must be given to the person and then he or she must be **escorted** to the office of the person visited. Once the visit is over, the visitor must be escorted back to the egress point.*

18. Are the following statements true or false? **(2 marks)**

		TRUE	FALSE
1.	On entering the premises or as a request from a visitor, the item doesn't have to be declared to the access control security officer.		X
2.	The access control security officer completes a register, which lists all the items, gives a description of them and the number of items. It is of the utmost importance that the access control security officer makes note of all the details of the item/s	X	

19. How would vehicle access control be achieved? **(5 Marks)**

- ◆ Booms
- ◆ Buffer equipment
- ◆ Inspection pits
- ◆ Dogs
- ◆ Personnel with mirrors

20. Look at the picture below and complete the table. (observation skills) **(6 Marks)**

People	
Build	Athletic
Race	White
Age	Approximately 35 – 40 years
Gender	Male
Hair	Unknown, wearing beanie
Height	Approximately 1,80m

21. Look at the picture below and complete the table. (7 Marks)

Vehicles	
Feature	Sedan
Make	Toyota
Model	Yaris
Registration number	WTT938GP
Colour	Light colour
Year of manufacture	Unknown
Description	None

22. Which details should be recorded in the visitor's register? (6 Marks)

- ◆ Name and surname,
- ◆ Firm or company represented,
- ◆ Reason for visit,
- ◆ Time in and out,
- ◆ Confirmation of appointment (the person visited),
- ◆ Permit (number) issued before entering and collected before departure.

23. Fill in the missing words: (dealing with members of the public) (5 Marks)

Often the **security officer** is the first person seen when entering a company's premise. If the visitor see's the security personnel in a **sloppy, dirty** and incomplete uniform, then the first impression of the company and security officer will be poor. This poor impression will be further reinforced if the security officer lacks **professionalism**, cannot **communicate** effectively and demonstrates bad manners.

24. How can a favourable impression be created by the security officer? (5 Marks)

- ◆ Be smartly dressed
- ◆ Act professionally
- ◆ Communicate effectively
- ◆ Show concern
- ◆ Demonstrate good manners

25. What must be done in order to portray and maintain a positive image with clients? **(3 Marks)**

- ♦ Courtesy
- ♦ Friendliness
- ♦ Dignity

26. There are 7 (seven) requirements of consent. List these requirements. **(7 Marks)**

The consent

- ♦ must be given voluntarily
- ♦ must be based on a true knowledge of the material facts
- ♦ must be given by a person who is capable in law of consenting
- ♦ must not be mere submission
- ♦ may be given expressly or tacitly
- ♦ must be given by the complainant
- ♦ must be given before the act

27. Is the following statement true or false? **(1 Mark)**

In terms of section 24 of the Criminal Procedure Act, private individuals are not entitled to search premises.

FALSE

28. Fill in the missing words: **(6 Marks)**

*A search of any person or premises shall be conducted with strict regard to **decency** and **order**, and a woman shall be searched by a **woman** only, and if no female police official is available, the search shall be made by any **woman** designated for the purpose by a **police official**.*

29. What should you look for when searching a person? List 5 items. **(5 Marks)**

- ♦ Hand guns
- ♦ Ammunition
- ♦ Parts of weapons
- ♦ Knives
- ♦ Detonators
- ♦ Components of bombs
- ♦ Miniature cameras
- ♦ Stolen/pilferage items

30. List 4 (four) areas to be searched in commercial vehicles. **(4 Marks)**

- ♦ between twin rear wheels
- ♦ Packing bags or containers
- ♦ Drive's cab
- ♦ Along the chassis
- ♦ Under the seats and spare wheels
- ♦ Hidden against the tail- board of a loaded vehicle
- ♦ Search for false bottoms in vehicles

31. What procedure should be followed when searching goods? **(3 Marks)**
- ◆ First determine if the goods are allowed onto the site, they might be prohibited items or dangerous goods
 - ◆ Take enough time to conduct the search
 - ◆ Make sure to look in all possible hiding places. Being systematic and thorough will help to assure finding possible hidden items
 - ◆ Taking time to search goods thoroughly can only be justified if you believe there is a good reason to do so.
32. What knowledge does the security officer need to assess and therefore be prepared for counteracting any threat? (Escorting) **(9 Marks)**
- ◆ A contingency plan (including an evacuation plan).
 - ◆ The company standing operational procedure.
 - ◆ Written site specific and post instructions.
 - ◆ Command structure (especially after hours).
 - ◆ Backup and support systems.
 - ◆ Knowledge of the environment in which the site is located.
 - ◆ Knowledge of the type of business conducted at the site.
 - ◆ Knowledge of the history of crime at the premises.
 - ◆ A comprehensive terrain analysis, which would be conducted by the officer to ascertain the mapping of the terrain including location of buildings, shops, gates, parking venues, loading bays, etc.
33. List the steps the security officer has to follow during his/her threat assessment before they can start with their escort duty. **(8 Marks)**
- Step 1:** Identify the potential threats.
Step 2: Assess the identified threats.
Step 3: Give priority to the threat in relation to the risk.
Step 4: Evaluate the valuable, person or suspect to determine if there are any specific details that should be included in the plan.
Step 5: Evaluate the route and destination to be followed during escorting.
Step 6: Make recommendations to reduce the risks.
Step 7: Apply additional security measures.
Step 8: Implement new security measures.
34. List 5 (five) range of threats the security officer might encounter in his daily routine. **(5 Marks)**
- ◆ Theft
 - ◆ Shoplifting/pilferage
 - ◆ Armed robbery
 - ◆ Occupational hazards
 - ◆ Inadequate communication equipment
 - ◆ Fire hazards
 - ◆ Bombs
 - ◆ Sabotage
 - ◆ Industrial espionage

35. List 5 (five) typical visitors that a security officer will encounter daily. **(5 Marks)**

- ◆ Someone delivering a package
- ◆ A person attending a meeting
- ◆ A person who has been summoned by another
- ◆ Contractors rendering maintenance service
- ◆ Telecommunication services
- ◆ City council officials
- ◆ Occupational health and safety inspectors

36. Fill in the missing words: (range of escort fields) **(8 Marks)**

Escorting can take place between the following venues, for example:

- ◆ *Valuables or goods from the **control room** to the point of delivery.*
- ◆ *Visitors can be **escorted** from the control room to the office where the meeting will take place.*
- ◆ *In the case of an **arrest**, from the place of **arrest** to the control room.*

*The security guard, who has been **appointed** in charge of the escort, must select the **equipment** and/or **vehicles** that will be needed for the task. Different types of escorting will need different types of equipment and vehicles.*
